Information Regarding Compliance with the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)

RealSense, Inc.
20400 Stevens Creek Boulevard
Suite 290
Cupertino, CA 95014

RealSense is committed to protecting the environment and complying with all hazardous substance regulations. To that end, RealSense tracks the material content of our products and makes that information available to our business partners. This letter provides important information about compliance with the European Union's REACH regulation (Regulation No 1907/2006), which addresses the production and use of chemical substances and their potential impacts on human health and the environment.

REACH Articles 6 and 7 Registration and Notification

At this time, RealSense is not aware of any products manufactured by RealSense that would require substance registration and notification under REACH Articles 6 and 7.

REACH Article 33 (1) Information Obligation

Article 33 (1) requires suppliers to inform the recipients if an article contains more than 0.1% (by weight per article) of any substance(s) on the [Substances of Very High Concern \(SVHC\) Candidate List](#). The European Chemicals Agency released the latest candidate list of SVHC on June 25, 2025 (see Attachment 1), bringing the total number of substances to 250. To the best of RealSense's knowledge, except for the seven SVHC listed in Attachment 2, the other SVHC are not present above 0.1% by weight in any article of RealSense's products currently placed on the market. To determine whether or not a product contains SVHC above the threshold, please refer to [RealSense® Regulatory Information](#) of that product.

REACH Article 67 Substance Restrictions

In addition to substances already restricted under the EU's Restriction of Hazardous Substances (RoHS) Directive, REACH Article 67 identifies certain substance restrictions in Annex XVII that might be present in electrical and electronic equipment. These substance restrictions, which are fewer in number than the SVHC list, also apply to distributors who resell components and sub-assemblies, and retailers who resell finished equipment. To the best of RealSense's knowledge, none of RealSense's products contain any substances subject to Annex XVII restrictions.

All information RealSense provides on the material content of our products is true and accurate to the best of our knowledge. If you have any questions concerning this letter, please contact your RealSense Representative. We will continue to monitor the status of future REACH SVHC candidate lists as part of our on-going compliance activities.
