October 2026

Information Regarding Compliance with Sections 848, 889 and 5949 of the National Defense Authorization Act (NDAA)

RealSense, Inc.
20400 Stevens Creek Boulevard
Suite 290
Cupertino, CA 95014

RealSense is committed to supply chain security and to supporting our business partners who sell to, or contract with, the United States Government. To that end, RealSense reviews the components and suppliers used in our products and makes that information available to our business partners. This letter provides important information about compliance with Section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232), Section 848 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92), and Section 5949 of the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023 (Public Law 117-263), which restrict U.S. Government procurement of certain telecommunications, video surveillance, unmanned aircraft system, and semiconductor products and services.

NDAA Section 889(a)(1)(A) Prohibition on Covered Telecommunications Equipment

Section 889(a)(1)(A), implemented at FAR 52.204-25, prohibits executive agencies from procuring any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Covered telecommunications equipment and services are those produced or provided by the entities listed in Attachment 1. To the best of RealSense's knowledge, RealSense products currently placed on the market do not contain covered telecommunications equipment or services as defined in FAR 52.204-25.

NDAA Section 889(a)(1)(B) Prohibition on Use of Covered Telecommunications Equipment

Section 889(a)(1)(B) prohibits executive agencies from entering into, extending, or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system. After conducting a reasonable inquiry, RealSense does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services.

NDAA Section 848 Prohibition on Foreign-Made Unmanned Aircraft Systems

Section 848 of the National Defense Authorization Act for Fiscal Year 2020, as amended by Section 817 of the National Defense Authorization Act for Fiscal Year 2023, prohibits the Department of Defense from operating, or entering into or renewing a contract to procure, unmanned aircraft systems (UAS) that are manufactured in a covered foreign country or by an entity domiciled in a covered foreign country, or that use flight controllers, radios, data transmission devices, cameras, gimbals, ground control systems, operating software, or network connectivity or data storage manufactured, developed, located in, or administered by such a country or entity. Covered foreign countries are the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, and the Democratic People's Republic of Korea. To the best of RealSense's knowledge, RealSense cameras and associated software currently placed on the market are not manufactured or developed in a covered foreign country or by an entity domiciled in a covered foreign country, and do not require network connectivity or data storage located in or administered by such an entity. RealSense cameras may therefore be used as camera components in UAS that comply with Section 848.

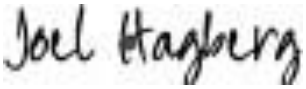

NDAA Section 5949 Prohibition on Covered Semiconductor Products and Services

Beginning December 23, 2027, Section 5949 prohibits executive agencies from procuring or obtaining any electronic parts, products, or services that include covered semiconductor products or services, and from contracting with an entity to procure or obtain electronic parts or products that use covered semiconductor products or services. Covered semiconductor products and services are those designed, produced, or provided by the entities listed in

Attachment 2. The FAR Council published a proposed rule implementing Section 5949 on February 17, 2026; the final rule has not yet been issued. To the best of RealSense's knowledge, RealSense products currently placed on the market do not include covered semiconductor products or services. RealSense is working with its suppliers to confirm the origin of semiconductor components and will update this information as the implementing regulations are finalized.

All information RealSense provides on the content of our products is true and accurate to the best of our knowledge. If you have any questions concerning this letter, please contact your RealSense Representative. We will continue to monitor the NDAA and its implementation of regulations as part of our on-going compliance activities.

Regards,

Joel Hagberg
Vice President of Product
RealSense, Inc.

Attachments

1 – Section 889 Covered Telecommunications Equipment and Services Entities
2 – Section 5949 Covered Semiconductor Products and Services Entities
3 – Section 848 Covered Unmanned Aircraft System Components

Attachment 1 - Section 889 Covered Telecommunications Equipment and Services Entities

Covered Entity	Covered Products / Services	Present in RealSense Products (Yes/No)
Huawei Technologies Company	Telecommunications equipment and services	No
ZTE Corporation	Telecommunications equipment and services	No
Hytera Communications Corporation	Video surveillance and telecommunications equipment and services used for public safety, security of Government facilities, physical security surveillance of critical infrastructure, or other national security purposes	No
Hangzhou Hikvision Digital Technology Company	Same as above	No
Dahua Technology Company	Same as above	No
Any subsidiary or affiliate of the above entities	Equipment and services as described above	No
Entities designated by the Secretary of Defense as owned or controlled by, or connected to, the government of the People's Republic of China	Telecommunications or video surveillance equipment and services	No

Source: Section 889 of Public Law 115-232; FAR 52.204-25.

Attachment 2 - Section 5949 Covered Semiconductor Products and Services Entities

Covered Entity	Covered Products / Services	Present in RealSense Products (Yes/No)
Semiconductor Manufacturing International Corporation (SMIC)	Semiconductors and semiconductor products or services	No
ChangXin Memory Technologies (CXMT)	Semiconductors and semiconductor products or services (memory)	No
Yangtze Memory Technologies Corporation (YMTC)	Semiconductors and semiconductor products or services (memory)	No
Any affiliate, subsidiary, or successor of the above entities	Semiconductors and semiconductor products or services	No
Entities determined by the Secretary of Defense, in consultation with the Secretary of Commerce and the Director of National Intelligence, to be owned, controlled by, or affiliated with the government of a foreign country of concern	Semiconductors and semiconductor products or services	No

Source: Section 5949 of Public Law 117-263. "Foreign country of concern" includes the People's Republic of China, the Russian Federation, the Democratic People's Republic of Korea, and the Islamic Republic of Iran. Prohibition effective December 23, 2027.

Attachment 3 - Section 848 Covered Unmanned Aircraft System Components

Covered UAS Component	RealSense Content	Made, Developed, or Administered in a Covered Foreign Country (Yes/No)
Cameras	RealSense depth cameras	No
Operating software	RealSense camera firmware and SDK (camera software only; not UAS flight operating software)	No
Network connectivity or data storage	None required; RealSense products do not require network connectivity or cloud data storage to operate	No
Flight controllers	Not supplied by RealSense	N/A
Radios and data transmission devices	Not supplied by RealSense	N/A
Gimbals	Not supplied by RealSense	N/A
Ground control systems	Not supplied by RealSense	N/A

Source: Section 848 of Public Law 116-92, as amended by Section 817 of Public Law 117-263 (10 U.S.C. 4871 note). "Covered foreign country" means the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, and the Democratic People's Republic of Korea.
